Rate your Beer

Chesterfield & District CAMRA are doing precisely the same as you, across the branch area – but with over 300 pubs to keep tabs on, we would appreciate a little help now and again! To help us decide which pubs in our patch are worth considering for the national Good Beer Guide, we are using the following 11-point scale to record Beer Quality, month by month:

- 0 Undrinkable - Doesn't serve real ale**
- 1 Very poor & going off - can't finish it**
- 2 Very poor - somehow drink it but wouldn't have another, even if someone else is paying**
- 3 Poor - out of a sense of duty (perhaps in a large party) you sup in halves**
- 4 Below average - wouldn't choose to have another, unless it's put in front of you**
- 5 Average - okay without being inspiring**
- 6 Above average - a pleasant drink, you'd stay for another unless there was a better option**
- 7 Good - definitely worth another pint (or two)**
- 8 Very good - happy to stay for a few more & seek out the beer next time**
- 9 Excellent - probably the best you're likely to find**
- 10 Marvellous! - a truly exceptional pint, best for a long time, a rare achievement**
